

FlyFree is a Naturally Kind Multi Insect Repellent for horses.

The horse has little choice in which products are applied to their body, they have a keen sense of smell and extremely sensitive skin, so a natural product will be preferred by most horses. When you use FlyFree not only is it kinder and safer for your horse, but also for yourself, other people and animals around you.

Citronella Lemongrass Lavender Rosemary

These 4 Organic Essential Oils safely protect your horse from flies, gnats, mosquitos and ticks.

DEET-Free Protection

#freemefamily

The amazing success of our Free Me Mosquito Repellents for humans led us to developing an equally effective formula that solves the issues of flies and other insects around horses.

We identified there was a shortage of a more natural choice of horse fly repellent available and we have worked endlessly and with the support of our Pharmacist, Horse Owners and their Grooms to provide a amazing solution that keeps horses happy and free from flies and other bothersome insects.
